Welcome

Dear Sponsors and Exhibitors,

We cordially invite you to take part at the next FENS (Federation of European Neuroscience Societies) Regional Meeting in 2017 (<http://www.fensfrm.hu/>)

The FENS Regional Meetings are regional scientific meetings organized by FENS member societies with FENS support. The FENS Regional Meetings are biennial meetings, alternating with the FENS Forums.

In 2017, the next FENS Regional Meeting will take place in Pécs, a Hungarian university town. The meeting will be held in the Kodaly Centre Pécs, one of Hungary's most beautiful world-class concert/conference halls, inaugurated in 2010 as part of the "European Capital of Culture" program. It is able to accommodate conferences with 1000 participants. We expect most conferees arriving from abroad, mainly from neighboring Central and Eastern European Countries. The scientific program will focus on the most recent discoveries in neuroscience from molecules to behaviour, highlighting discoveries of translational potential. In addition to the wide range of scientific insights a special emphasis will be placed on cutting-edge technologies. We invited numerous world class scientists for plenary lectures, several of them are either Nobel laureates or Brain Prize Winners.

We believe that this FENS Regional Meeting will be an excellent occasion for your company to meet neuroscientist working mainly in Central and Eastern European Countries.

We look forward to meeting you in Pécs at the next FENS Featured Regional Meeting in 2017 (<http://www.fensfrm.hu/>)!

Conference venue

Pécs, the Mediterranean city of Hungary, is located in the South of Hungary. It can be easily reached by train or long distance bus service from Budapest. The Kodály Centre is situated within 10 minutes walking from the city centre.

In 2010 Pécs was one of the three cultural capital cities of Europe. This occasion served as a great purpose to build and design several new buildings, among these the Kodály Centre, with the Conference Centre and the Concert Hall.
